

# STGLOBAL CONSORTIUM

BRIDGING BOUNDARIES IN SCIENCE & TECHNOLOGY POLICY AND STUDIES

## CONSORTIUM MEMBERS

Arizona State University –  
Consortium for Science,  
Policy & Outcomes

École Nationale Supérieure  
des Mines de Paris – Center  
for Sociology Innovation

George Mason University –  
Center for Science and  
Technology Policy

Georgetown University –  
Communication, Culture &  
Technology

Georgia Institute of  
Technology – School of  
History, Technology, and  
Society

The George Washington  
University – Center for  
International Science and  
Technology Policy

Virginia Polytechnic  
Institute and State  
University – Science and  
Technology in Society

## MISSION PARTNERS

American Association for  
the Advancement of  
Science (AAAS)

The National Academies

## MISSION

STGlobal inspires and  
challenges graduate students  
to contribute to the forefront  
of research on science and  
technology policy and social  
issues.

## Call for Papers & Posters

11<sup>th</sup> Annual Graduate Student Conference  
April 15-16, 2011 • Washington, DC

**The Organizing Committee of the STGlobal Consortium is now welcoming submission of abstracts for papers and/or posters to be presented at the 11<sup>th</sup> Annual STGlobal Conference for graduate student researchers.**

**Consortium Profile:** The STGlobal Consortium is an international, interdisciplinary organization of leading graduate programs in science and technology policy (STP) and science and technology studies (STS). The STGlobal conference, presented in collaboration with our Mission Partners, develops emerging S&T scholars and fosters mutual understanding in the S&T community.

**Topics:** Abstracts are welcome on issues relevant to science and technology policy (STP); science and technology studies (STS); and related fields including but not limited to health, energy and environment, space, information and communications, innovation, education, and ethical, legal and social implications of science and technology.

**Eligible Presenters:** Open only to students enrolled in a graduate program at the time of submitting an abstract, for work performed while enrolled in that program. Recent graduates who were enrolled students at the time of submitting an abstract are eligible as presenters.

**What to Expect:** Student presenters will receive constructive feedback on their research, learn about related research in other disciplines, and build national and international connections with one another, prominent scholars, and professionals. *Presentations are typically 15 minutes long, depending on the number of presenters in each session.* Sessions will be assembled around similar themes and conducted in English. Students are encouraged to prepare a poster to present at a reception or to complement their formal presentation. Prominent figures from both STP and STS will deliver keynote addresses. Ample time is allotted for networking and community building and a portion of the conference will be dedicated to career development.

**Abstract Requirements:** Abstracts of up to 250 words will be accepted. Abstracts should summarize the research you want to present as a paper and/or poster at the conference. Abstracts will be selected based on significance of research question and effectiveness in communicating your completed or in-progress research.

**Deadlines:** Recommended Submission Date for Abstracts: November 15, 2010  
Final Submission Date for Abstracts: January 31, 2011

**Submission Guidelines:** Submit abstracts via e-mail to [abstracts@stglobal.org](mailto:abstracts@stglobal.org). Above your abstract narrative (not included in 250 word count), please provide: 1) title of your paper and/or poster; 2) your full contact information; 3) your expected date of graduation; 4) school affiliation; and 5) name and website of your academic program. **Acceptance:** Abstracts will be accepted on a rolling basis to accommodate students who need to acquire a Visa.

**Travel:** Please see: <http://www.stglobal.org/travel.html>. International students from countries that are not a part of the U.S. Department of State Visa Waiver Program are encouraged to submit their abstracts as early as possible. Links to important Visa information are available on the STGlobal website. **Travel Grants:** Limited funds are available for student travel grants, to be awarded based on need and to early applicants. To apply for these funds, please attach your estimated travel costs and a brief statement of need with your abstract.
