## Reskilling & Upskilling for an AI-Powered Manufacturing

Tech Talent

Funded by the  
European Union

**Date:** 27 March **Time:** 15-19h CET **Venue:** [I3P Politecnico di Torino](#)

This session is dedicated to **discussing how AI is actively shaping workforce development in manufacturing**, exploring strategies to ensure adaptability, career growth, and long-term competitiveness in an AI-driven industrial landscape. Moderated by Francesca Barisani, Chief of Outreach, EIT Deep Tech Talent Initiative

### Agenda

- 15:00 – 15:10** **Opening. Francesca Barisani**, Chief of Outreach, EIT Deep Tech Talent Initiative  
**Welcome from Politécnico di Torino - Fulvio Corno**, Vice Rector for Education and Emilio Paolucci, Professor of Strategy and Entrepreneurship
- 15:10 – 15:20** **Welcome from EIT Deep Tech Talent Initiative - Cosimo Musca**, Deputy Head of Italian Public Affairs & Programs Management Director at STMicroelectronics; EIT Deep Tech Talent Initiative Advisory Board member
- 15:20 – 15:35** **Covisian Group, Fabio Sattolo, Chief People & Technology Officer** - "Empowering the Workforce: AI-Driven Transformation in Customer Experience"
- 15:35 – 15:50** **Iveco Group, Pierfrancesco Rizzo, Head of AI Lab.** "Smart Technical Drawings: Gen AI and Computer Vision at the Service of System Engineering"
- 15:50 – 16:05** **European Training Foundation, Fabio Nascimbeni**
- 16:10 – 16:25** **EIT Manufacturing, Linda Ferro, Senior Manager Upskill & Reskill** - "Skills preparedness in manufacturing: addressing workforce needs for the future"
